DETAILED ACTION

Election/Restrictions

1. Applicant's election of Invention II (claims 7-16) in the reply filed on 4/21/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Accordingly, claims 1-6 and 17-19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention.

Claim Objections

2. Claim 8 is objected to because of the following informalities: "comprises stepped band" in line 2 should be --comprises a steeped band--. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Primucci.

In regard to claim 7, Primucci discloses a shower surround comprising a first surround section (the middle section) having an inner band section; a second surround section (the top section) comprising an outer band section; and a retainer assembly (34) mounted to the outer band section (see Fig. 5), the retainer assembly comprising a first

Art Unit: 3751

frame arm (40) opposed to a second frame arm (42) and a stop (36) which extends substantially between the first frame arm and the second frame arm, the inner band section receivable against the stop and between the first frame arm and the second frame arm (see Fig. 5).

In regard to claim 8, the outer band comprises a stepped band section (where 10 is pointing in Fig. 5) displaced from a surround surface.

In regard to claim 9, the inner band comprises a rib extends therefrom (shelf 14 is considered as the rib as claimed).

In regard to claim 13-16, the method as claimed would be inherent during normal assembly of the Primucci shower surround.

Allowable Subject Matter

4. Claims 10-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Thomas, LaRoche et al., and Wissinger disclose other shower surrounds. Dron, Davis et al., and Takahashi et al. disclose retainers with seal.
